This product is based on around 20 years of research in Astrology. We provide highest quality astrology software after thorough research. We would like to clarify certain points. The most important point is about planets in house. Suppose, for a native, the Ascendant is Aries and Mars in Taurus, it is assumed by astrologers that Mars is in second house. However, depending upon the table of houses, Mars may be in first house or second house or third house. So, we request astrologers to refer to "Bhava Chalit Chart" or "Table of Houses" or "Bhava Chakra". The same is applicable to Bhava Lord.
